## ***A Word from Bruce***

*Did you hear about the man who went to the doctor because he had a severe obesity problem? The doctor examined him very carefully, and said, "I have some good news and some bad news." "The good news is*

*that there is not anything wrong with your appetite. The bad news is, according to your weight, you're not as tall as you should be."...*

*I have had the opportunity to have been around some very Christ-like Christians who are an absolute joy to be around! I even remember thinking, "I wish I could stay longer!" I have also had experiences with folks who were not very Christ-like even though they claimed Him as their Way, Truth and Life. I also remember thinking while parting from them, "I think I'd rather had a root canal than that!"*

*I am constantly reminded when I look in the mirror, when I am with people or by myself, "God is still working on me and He is still working on them." Sometimes I am like the young lady who occasionally walked through the park after work. One day she stopped to have her picture taken by a photographer. She was very excited about her picture being taken. As she walked out of the park, she looked at the polaroid picture in total amazement. She turned and headed back to the camera man. When she got there she stated, "This is not right! This is not right! You have done me no justice!" The photographer looked at the picture and looked at her and stated, "Miss, you don't need justice, what you need is mercy." If God dealt with us justly none of us would be here today. Sometimes we think we look good, but if we look at the real picture under the microscope of God's eye, justice is not what we really want.... Let us act justly and love mercy and walk humbly with your God (Micah 6:8).*
