### **SLOW DOWN**

This time of year is a very busy time for teens, football games, homework, cross country, band and school take up so much of your time. But here's a question: "Are you able to squeeze time into your hectic schedule for God"? Hopefully so! But if you're one of those who rush through the day with scarcely a single moment to talk with your Creator, it's time to reshuffle your priorities.

You live in a noisy world, a world filled with distractions, frustrations, temptations, and complications. But if you allow the distractions of everyday life to distract you from God's peace, you're doing yourself a big disservice. So here's some good advice: instead of rushing nonstop through the day, slow yourself down long enough to have a few quiet minutes with God.

Nothing is more important than the time you spend with your Heavenly Father. Absolutely nothing. So be still and claim the inner peace that is your spiritual birthright, the peace of Jesus Christ. It is offered freely, it has been paid for in full, it is yours for the asking. So ask, and then share.

Careful planning puts you ahead in the long run, hurry and scurry puts you further behind.

Proverbs 21:5

### New Sunday Morning Bible Class in the Family Room!

#### **Parenting: The Early Years**

#### **10 BIBLICAL TRAITS YOUR KIDS WILL REMEMBER YOU FOR**

So many parents out there are wondering, “Do I have what it takes to be a good parent?” A lot of times parents need help, but nobody likes to ask for help.

That’s why Drs. Les and Leslie Parrott along with bluefish tv to create a new video-driven study called Parenting: The Early Years. Now, this goes deeper than any technique of just getting kids to eat their broccoli and clean their room. It takes a Biblical approach into the traits parents want their children to have and what traits they want their children to see modeled in them.

On this six DVD series our team took their cameras into the homes of 20 families and captured real-life parenting moments. Some of these are funny moments and some are just completely honest moments that every parent can relate to.

The study looks at what it’s like for married, single and blended families.
